FREDRICK H. PIERCE.

F. H. Pierce, president of the Commercial Club of Las Vegas, is one of the most public spirited and progressive business men of this community. Twenty years ago, in June, 1886, Mr. Pierce came to Las Vegas from Louisville, Ky., to assume the active management of the Agua Pura Company as superintendent. A year later he was elected secretary-treasurer of the company, and from that day to this he has been the active head and dominant spirit in the business of this company. Mr. Pierce both personally and through the instrumentality of the Agua Pura Company, has been prominent in assisting every enterprise which has been promoted in the interest of Las Vegas. He has been especially active in the negotiations which resulted in the location of the National Fraternal Sanitarium at Las Vegas.

In addition to the presidency of the Commercial Club, Mr. Pierce occupies the following positions of importance: President of the Investment and Agency Corporation; President of the Territorial Penitentiary Board for the fourth consecutive term; Director of the Las Vegas Land Grant; Treasurer of the Las Vegas Driving Park and Fair Association; Trustee of the Presbyterian church; Vice-President and Treasurer of the Douglas Avenue Building Company; Director and Treasurer of the Mutual Improvement Company; Treasurer of the Las Vegas Tent City Co.—Las Vegas, New Mexico, Daily Optic.

Mr. Pierce is a brother of R. B. Pierce, of this city, a member of one of the best known families here, and is extensively known and liked in Cloverport and throughout Kentucky.

### Supt. Archer to Speak.

Hardinsburg, Ky., March 6.—W. G. Archer, of Owensboro, will address an open meeting of the Commercial Club at the court house on the evening of Friday next. Mr. Archer is a very entertaining speaker, and everybody is cordially invited to hear him.

## Peculiar To Itself

In what it is and what it does—containing the best blood-purifying, alterative and tonic substances and effecting the most radical and permanent cures of all humors and all eruptions, relieving weak, tired, languid feelings, and building up the whole system—is true only of **Hood's Sarsaparilla**. No other medicine acts like it; no other medicine has done so much real, substantial good, no other medicine has restored health and strength at so little cost.

"I was troubled with scrofula and came losing my weight. For four months I could not see to do anything. After taking two bottles of Hood's Sarsaparilla I could see to walk, and when I had taken eight bottles I could see as well as ever." *Stella A. Harris, Withers, N.C.*

Hood's Sarsaparilla promises to cure and keeps the promise.

## MRS. DAN SHACKLETT IS DEAD.

Ekron, Ky., March 6.—It is indeed sad to chronicle the death of Mrs. Dan Shacklett (nee Miss Lillie Scott). She was sick only a few days and was taken to an infirmary in Louisville Friday where an operation for appendicitis was performed Saturday morning. But, alas! nothing could be done. The death angel came and took her loving spirit to the God who gave it.

She was a member of Ekron Baptist church at the time of her death. In the death of this beloved Christian woman our community and our church feels an irreparable loss. We extend sympathy to Bro. Shacklett in his great sorrow, and weep as we realize that his home belied was so full of joy and so soon made sad.

Sister Lillie was reared in Hardinsburg she was a long felt Christian worker there. She married Rev. Dan Shacklett in the month of June 1905. She died March 2, 1906. Her funeral was preached in the Ekron Baptist church by Rev. Benjie Hagan on Monday at 1 p. m. and her dear body laid to rest in Brook Grove cemetery to await the resurrection morn. Her dying words were indeed sweet. When told she had only a few minutes to live she smiled and said "If it is the Lord's will I am ready."

## HENRY WATTEKSON'S OPINION OF THE SALOON.

The "saloon," as it is called and as it exists in the United States, has not one redeeming feature. It is the direct source of two-thirds of the evil that corrupts our living—from theft to murder, from feasting and child-laboring to State prison and self-destruction. If the hatchet of Carrie Nation could reach and be made effectual and final, I, for one, would cry God-speed the woman and the day. I have always believed in and voted for local option, which, in the lesser communities, can be enforced. If I believed that every saloon in Louisville could be closed, and kept closed, between Saturday midnight and Monday daylight, I would vote for the act and support the order compelling it. It is because the experience and observation of many years in many cities impress upon my mind a contrary belief that—most reluctantly—I fall in with a compromise, which I concede to be logically and morally untenable, and am disposed to parley with what seems beyond control; though I shall not dispute the point with those who, more optimistic, entertain a different opinion. On the contrary, in case the event prove that I am mistaken, and that they are right, no one will be more gratified than I shall be. H. W. in Sunday's Courier-Journal, Naples-on-the-Gulf.

## Married At Hardinsburg.

Hardinsburg, Ky., March 6.—Miss Sarah J. Shellman, daughter of the country justice, R. A. Shellman, was quietly married to James W. Hendrick, on Wednesday afternoon, January 31, at the residence of the bride's father, in the presence of a few friends and relatives. The Rev. D. F. Shacklette performed the wedding ceremony in an impressive manner. Two of the best and oldest families of the county are united by this marriage.

## DEATH ANGEL VISITS BEWLEYVILLE.

Bewleyville, Ky., March 6.—Mr. Abe Gross, one of the oldest citizens of this neighborhood, died Sunday. Mr. Gross leaves a wife, seven children and a host of friends and relatives to mourn his loss. His remains were interred in the Bethel cemetery on Monday morning.

## AMATEUR PLAY, A SUCCESS.

The Amateur play "A Regular Flirt" given at Oelzen hall last Thursday night was welcomed by a full house and is generally conceded to have been most profitably produced by those who saw the production Unlike "Sweet Lavender," which was played here by amateurs last year, "A Regular Flirt" lacked depth. However, it was full of life and spirit, and was a clever comedy dealing with the events of a modern house party.

No noticeable hitches were made during the performance and the cast played their parts with the ease of a Julia Marlowe or a David Garrick. The "Gibson Girls" in Charles Dana Gibson's play "The Education of Mr. Pipp" would have passed into oblivion if they had been placed beside our three Cloverport girls Misses Mamie White, Margaret Moorman and Margaret Sullivan, who played leading roles in "A Regular Flirt." Arranged in simple but beautiful dresses and with nature's finishing touches about their faces, to look at them made one feel that he had a vision of the sublime.

The others who took part in the production were: Mr. and Mrs. J. P. King, Jas. S. Younger, Lawrence Murray and J. D. Hobbage, Jr., J. W. Neuberger made a hit with his "com" specialties.

Gross proceeds amounted to \$71, net profits about from \$30 to \$40. This was divided equally between the Public school library and the local chapter of the Epworth League.

Good music was rendered by the Cloverport band composed of Sam Keith, violinist, Charlie Hall, violinist, Tom Morrison, guitarist, Emmett Mattingly, bass violinist. Sam Keith's violin voice received much favorable comment.

### BENNETT WAIVES

#### EXAMINING TRIAL.

Loyal P. Bennett, United States deputy marshal for the Owensboro district, declined to examine the man charged with killing William Macy. He was arraigned before County Judge Henry D. Moorman, of Breckinridge county, at Hardinsburg Thursday afternoon, and his action in waiving his right of examining trial was somewhat of a surprise. He was released under bond of \$750 to appear before the next grand jury of Breckinridge county, and immediately prepared to return to Owensboro.

Macy was killed at noon Sunday by being shot in the back by Marshal Bennett. Bennett claimed that the killing was an accident, as he did not aim at Macy and was 100 yards from him when the shot was fired. Macy had been arrested on a charge of retailing whisky without having paid the government special tax. The deputy marshal was preparing to bring him to Owensboro when Macy undertook to make his escape by running. Bennett fired five shots, all of which, he says, were not aimed at all, but were merely for the purpose of trying to frighten Macy into stopping. The killing occurred at Rosetta, in the eastern portion of Breckinridge county.

### THREE SERVICES

#### UNITED AS ONE.

An agreement to the effect that the Methodist and Baptist prayer meetings and the meetings of the local temperance organization should meet as unite on Wednesday nights the Methodist and Baptist churches alternately, was made Tuesday night at the meeting of Agriculture of the National League. The agreement holds good until after the local option election. May 5. A representative of the temperance people said that in view of the commercial club having its meeting on Tuesday nights it was thought best to make a change in order that the members of the club might attend the temperance without neglecting other interests.

Arrangements are being made to have speakers here every week in April. At least once weekly and as a rule two or three times a week.

Mrs. Lodie Thompson was in the city Saturday.

Born to the wife of Wm. A. Tinsley, Feb. 23, of Kent Wash., a fine 9th, boy, Robert Earl. Mother and boy are doing well.

## Home Baking with ROYAL Baking Powder

The United States Agricultural Department has issued (and circulates free) a valuable report giving the results of elaborate experiments made by and under the direction of the Department, which show the great saving from baking at home, as compared with cost of buying at the bakers. All bread, cake, biscuit, crullers, etc., are very much fresher, cleaner, cheaper and more wholesome when made at home with Royal Baking Powder.

## BOAT MFG. CO. IS ON FOOT.

## A PRIEST OR A PREACHER.

At the instigation and encouragement of several friends, Capt. T. F. Sawyer who has for several years been building water crafts of various sizes, has on foot a movement to organize and incorporate a company with capital stock of \$4,000, for the purpose of building boats. Capt. Sawyer has given the matter much thought and consideration and says that boats can be built and sold in Cloverport at a profit. "With the raw material and supplies that Cloverport affords," declared Capt. Sawyer "we can build a boat and make money as well as Easton or Saginaw. Up East they do not know how to build a boat for the waters of the Ohio and rivers further south. I am continually receiving inquiries for boats. The little crafts that I have built on my own account, I have disposed of easily at fair profits. Being born on the Ohio we have the shipping advantage and can compete with Eastern firms. I have no hope of selling boats in the East but I am sure we would have no trouble placing our boats in the South."

Undoubtedly one of Cloverport's prominent men has offered to take stock in a company like Capt. Sawyer proposed. Mr. Sawyer is confident that he can secure the \$4,000 capital from local and foreign parties. In case the company is organized it will build any moderate size boat at prices to compete with other factories.

## FIRST INSTITUTE A BIG SUCCESS.

Frankfort, Ky., March 1.—The first State Farmers' Institute held under the auspices of the Kentucky Agricultural Department came to a close late this afternoon after a most successful meeting and after the formation of an organization of farmers which will continue it from year to year in the future, and do much to arouse interest in local organizations.

The Institute meeting was of three days' duration, during which time some of the most noted experts of the Department of Agriculture of the National Government, and of other States, instructed the two hundred and odd delegates in the most improved methods of culture of crops.

President Roosevelt has again intervened as peace maker between the coal miners and operators and as the result of a letter addressed to him by John Mitchell, president of the United Mine Workers of America the national convention of the miners will be held March 15 in Indianapolis to try to reach an agreement with the soft coal operators in the hope of averting the threatened strike April 1 in the bituminous coal fields.

As County Judge, I married my first and last couple Thursday. Notwithstanding I have a legal right to perform such ceremonies. I will perform no more to the reason that I feel that no person other than a Priest or Preacher has the God given right to perform a marriage ceremony. This is a ceremony that ought to be too sacred to be performed in a public office before a curious and uninvited crowd. I think when this ceremony is performed by persons other than those above named, it detracts from the sacredness of the contract—and I really feel that an officer goes entirely out of his line of his duty. I hereby give notice that it will be useless to apply to me to perform such ceremonies hereafter during my term.

Asserting that this is a conscientious conclusion, I am,

Very truly,

H. DeH. Moorman, J. R. C. C.

Miss Mary Christina Hamman is the little daughter of Mr. and Mrs. Chas. Hamman, of Cloverport. Although she has not reached her second birthday, she has made a host of friends and is a very attractive little girl.

### Electric Light Franchise Sold.

The City Council at its regular meeting Monday night sold a 20-year franchise to H. Stuart Miller for \$5, giving the right to construct and operate an electric light, heat and power plant in the city of Cloverport. The site for the plant has not been given out by Mr. Miller as yet, however, preparations are being made to begin its construction at once. The sale of this franchise is positive assurance of electric lights for Cloverport.

## TRAINED NURSE.

Writes a Letter to the News.

To the Editor of the News:—

"I am a trained nurse of nine years' experience in hospitals and private cases, and for the benefit of the people of Cloverport, I wish you would publish my experience with the cod liver oil preparation, called Vinol."

"I was completely prostrated from overwork. I had no appetite, could not sleep, my kidneys, liver and bowels became inactive, and as I grew weaker could not retain either medicine or food on my stomach and raised blood. The doctors said my condition was critical, and I would probably die."

"As I had seen Vinol prescribed for my patients with such remarkable results, I decided to try it myself. After the first bottle I began to improve. I continued its use and soon began to sleep and eat well; every organ in my body was strengthened and became normal, until it seemed good to be alive and was restored to perfect health and strength."

"I believe Vinol is the most potent and delicious cod liver oil preparation and tonic restorer in the world, and it is such a blessing to be able to take into the system all the body-building and medical elements of cod liver oil without the nauseating, greasy oil itself."

"I advise all my patients who need strength for every organ in the body, rich, red blood, and all flesh tissue, to take Vinol, as it is so far superior to old-fashioned cod liver oil, emulsions or other tonics." Elizabeth M. Cremond, Trained Nurse, Boston, Mass.

Short & Haynes druggists sell Vinol on a positive guarantee to return your money if it fails.

### Endorse Road Convention.

Beverlyville, Ky., Feb. 24.—Editor News:—Permit me say I endorse Judge Morrison's Road Convention. Anything for good roads. I am for issuing 20 or 30 year county bonds for a sufficient amount of money to put all the roads in the county in good condition. Then tax the people to pay on it. I am for solid bonds and something over to be put into a sinking fund, etc.

Anyone can something better, let us hear from him. I am for good roads. Thos. J. Jolly.

Loss of appetite always results from family digestion. All that is needed is a few doses of Chamberlain's Stomach and Liver Tablets. They will regulate the stomach, strengthen the digestion and give you an appetite like a wolf. These Tablets also act as a gentle laxative. For sale by Short & Haynes.

### Corporal Punishment.

H. B. 564.—Mr. Wilson—Providing that corporal punishment may be inflicted for vagrancy, wife beating, child beating, pot lapping and disturbing public worship. Kentucky Statutes.

### Torture by Sages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, resembling some of the intense suffering I endured for three months from inflammation of the kidneys," says W. M. Sherman, of Cushing, Mass. "Nothing helped me until I tried Electric Bitters, three bottles of which completely cured me." Causes Liver Complaint, Dyspepsia, Bilious Disorders, and Malaria; and restores the weak and nervous to robust health. Guaranteed by Short & Haynes, druggists. Price 50c.

## CHURCHES UNITED.

The Baptist people of Hawesville, known as the open communionists, and the people of the Christian church there, have been united into the Christian church. The church organized with fifty members. George Bentley, Thomas D. Ireland, E. C. Vance were as a Board or Trustees. The following were elected as Elders: George Bentley, J. W. Patterson, and T. D. Ireland. Messrs. Stephen Parker, E. C. Vance, Prof. Sawyer and Dr. Standish were unanimously chosen as Deacons.

A special train from Owensboro to Hawesville Sunday brought up a hundred members of the Owensboro Christian church under the lead of their pastor, R. H. Crossfield. The services were held in the court house, and it is said that they were the most enthusiastic of any church services ever held in Hancock county. Many addresses were made by notable men of the Christian church.

## WHY MCKINLEY WAS A MASON.

A dinner to the Sovereign Grand and Grand Conduits of the Ancient and Accepted Scottish Rite was given at the Savory last night by the constituents of the metropolitan district. Incidentally it was the ninety-ninth anniversary of the establishment of the Supreme Council of the United States.

Gen. Horatio C. King gave some reminiscences of the civil war and told how President McKinley came to join the order.

"It was during the campaign in the Shenandoah Valley," he said, "McKinley, then a Captain, and myself, his ranking officer at that time, were walking through a hospital tent in which were a number of Confederate wounded. The Captain seemed surprised to see the surgeon in charge of the ward talking to some of the Confederates as if he had known them all his life. He shook hands with them all, giving here and there small sums of money until his supply was exhausted. McKinley asked the surgeon if he knew the men."

"No," he replied.

"Well, do you ever expect to get the money back?" McKinley asked.

"I presume some of them will return it when they can," said the doctor.

"Why did you give it to them, anyway?"

"They were Masons," said the doctor.

The reply impressed McKinley so that he immediately joined the lodge at Winchester, made famous by "Sheridan's Ride." After the war he took his demit to Canton Lodge."

Frank T. Watson, Grand Commander in Chief of the State, gave a brief history of the order in the State and its early days in this country. Andrew J. Pluvost, Sovereign Grand Commander, responded to "The Grand Men of the Rite."

### Afflicted With Rheumatism.

"I was and am yet afflicted with rheumatism," says Mr. J. C. Bays, editor of the Herald, Adirondack, Indian Territory, "but thanks to Chamberlain's Pain Balm am able once more to attend to business. It is the best of liniments." It troubled with rheumatism give Pain Balm a trial and you are certain to get more than pleased with the prompt relief which it affords. One application relieves the pain. For sale by Short & Haynes, Cloverport.

### The Fiddle Drill.

The "fiddle drill" is one of the oldest stonemasonry tools in existence. It is said to antedate Greek sculpture and is in use today. It is about the same form as it was 2,000 years ago. As its name implies, its action resembles a fiddle. The drill is of two pieces. In one hand a carrier holds the drill stock, which is a carpenter's brace, except that it is straight instead of having a crank. In the other hand he holds the "bow," which is a long brass wire and which is given a turn around the drill stock. To use the drill the carrier places the drill stock against his breast, holding it with his left hand, and with his right hand draws the bow back and forth, nibble fashion. This imparts a rotary motion to the drill stock, and the drill is ground to cut in either way it turns. The fiddle drill is used in the finest work, in crevices where the sculptor could not reach with his chisel and hammer without endangering the carving.

### The Worrying Habit.

I asked a physician what cure he would suggest for the worrying habit. "I would prescribe common sense," he said. "And if a man or woman hasn't got a stock on hand and can't cultivate one, no doctor can give it to him or her. This worrying nonsense grows. The best means to cure it lies in the hands of the woman herself. If she will just call a little common sense to her aid, resolve not to borrow trouble, to be cheerful and think upon the best side of things, she will live longer and retain her beauty longer. Every woman wants to keep beautiful to the last. Why does she take the course which is sure to make her yellow skinned, dull eyed and thoroughly unlovely?"

Why, indeed?—New York Globe.

### Vanilla.

It is curious to read that vanilla was employed by the Aztecs of Mexico as an ingredient in the manufacture of chocolate prior to the discovery of America by the Spaniards and that it was brought to Europe as a perfume with indigo, cochineal and cacao ten years before the arrival of tobacco on our shores. The name vanilla is derived from the Spanish vanilla, a pod or capsule. Dried and cut up as it is a little pod full of small black seeds and like the stem of a tobacco leaf, so much so that his men when they found the dried pods at first threw them away, "wondering why the Spaniards should lay up tobacco stems."—Chambers' Journal.

### The Canadian Line.

The boundary line between Canada and the United States is marked with iron posts at intervals of a few feet. In length, width, and number of timber posts are also used, and through the forests and swamps a line of red poles, clear of trees and under wood, has been cut. Across the lakes artificial islands have been made to support the cairns, which rise about eight feet above the high water mark.—Exchange.

## NATURAL BUILDERS.

BOASTFUL MAN SHOULD CONSIDER THE WORK OF ANIMALS.

Extraordinary Instinct and Capacity of Some Apparently Insignificant Creatures—A Few of the Many Wonders They Have Performed.

Man prides himself upon his marvelous inventions. He looks up to the admiration of the world the wonderful buildings which he has constructed and thinks himself unrivaled as an architect, but the who teaches man knowledge has instructed the smallest insects in the art of building and has thus anticipated the works of man as an architect. They who build the tower of Babel thought their invention of turning earth into stone a most wonderful discovery, but the white ant and the busy little bee had practiced this art from the earliest days. The great mathematician instructed the tiny bee how to build its first cell in the manner which combines the greatest amount of strength with the least material. In fact, which may be called perpetual memory, has preserved the knowledge thus communicated, and the art has been practiced by the countless myriads of their descendants in all climates and countries. The little bee has been engaged in storing away the honey in these hexagonal cells, constructing the cells of wax and placing within them the bee bread, a paste made of pollen and honey, for the food of the young. In each of these cells the queen bee deposits an egg. Some of the bees surround their nests with drows collected from the leaves of plants to serve as a nonconductor of heat, to guard against changes of temperature.

Nature taught the inferior orders of animals carpentry, taught them to divide their houses into various apartments, to construct domes, arches, staircases and colonnades and to excavate tunnels. The scarlet hangings of the ancient city of Tyre excited the admiration of the then known world, but there was a little insect that knew the art long before the celebrated Tyrian dye was discovered, of hanging the walls of its cell with tapestry of a scarlet more brilliant than that of Tyre.

Selecting the scarlet petals of the poppy, the upholsterer bee cuts small, oval pieces as neatly as if done with a pair of scissors, seizes the pieces between her legs and carries them to her nest. She overlays them three or four in thickness, fitting the pieces very dextrously, and thus hanging her nest all around with this splendid scarlet tapestry. In this beautiful nest her eggs are hatched.

Men have been ages in bringing populous cities to their fullest extent, but the white ants require only a few months to build a city, and they have much larger number of inhabitants than Babylon in all its glory. These habitations are built with two stories, with long galleries and many chambers. The spider weaves his home as a silken net; the locust constructs his of the bark of trees, cut in to shape by a sawlike organ which he possesses, the knicker, round its young in a floating cradle; the ant builds winding passages to numerous chambers. In the innermost of these chambers the infant termite is laid at night to protect them from cold. In the morning, when the sun is up, the workers convey the larvae to the upper chambers, close under the roof, where they may have warmth.

The beaver built is round and arched and has a cellar, a flooring, a ceiling and a roof raised by an animal destined of the builder's art and instructed only by nature. The hare keeps open a chimney to his burrow for circulation of air, from which in cold countries a little column of steam is often seen to arise. The chipmunk builds for himself a hut of branches and leaves, which is, however, roofless. Many shellfish have been taught by Mother Nature to construct their houses without moving out of them. Birds build various kinds of nests in various kinds of places. They hang them from trees, they weave them in a living leaf, they weave a matting above them, they build them in sections under a common roof in the shape of a purse, they place them in tufts of grass where they found their lowly home of withered herbs and dandelion seed heads.

And consider spider grass. They line their houses with feathers, leaves, grass, hair, string, moss; they cement them, they glue them, they plaster them.

The most insignificant of nature's creative bounty have a talent for making houses for their young. The gentry in yellow jackets deposit their eggs in brown paper cups or in little clay cells; the spider, the fly spinner, the thorn up in bags of quaker cooked silk. Some do them up in gray burlap and hang them on trees; some find a cradle for them in the ripening apple or in the reddening cherry, while some stretch them beneath the leathery umbrella of the toadstool. Everywhere these larvae may be found as spring openings, they are peeping from holes swinging in the air, laid away in silken shrouds, rocked in shells of the ocean, burrowing in the earth, skulking in the woods, set in mother of pearl, put up in ivory, imbedded in sand, laid away in the center of fallen logs, pecking from the other side of shells, blue mottled and white, each fulfilling its part in the great workshop of nature. The great monuments of man, his cities, edifices, roads, are but pebbles in comparison with the works of these humble creatures who have constructed reefs and islands in the midst of the sea. Deep down in the waves is one of nature's largest workshops, and the work is done according to nature's order by the little coral animal whose home is in the ocean.

## HYOMEL CURES CATARRH.

Its Healing Balsams Kill All Catarrhal Germs—Sold Under Guarantee by Short & Haynes.

There is no more common disease than catarrh, and none that is more dangerous. It weakens and debilitates the whole system, if it is allowed to run, leads to serious, and sometimes fatal complications.

It is now worthy fact that among the many medicines and treatments for catarrh, there is only one which Short & Haynes will under their positive guarantee to refund the money if it does not cure.—Hyomel, Nature's remedy for the cure of catarrh.

No dangerous drugs are taken into the stomach when Hyomel is used. Breathed through the small pocket, in baler that comes with every Hyomel outfit, its healing balsams penetrate to the most remote cells of the throat, nose, and lungs, killing the germs of catarrh, healing the irritated mucous membrane, and making complete and lasting cures.

The complete Hyomel outfit, consisting of an Inhaler that can be carried in the purse or vest pocket, a medicine dropper, and a bottle of Hyomel costs only \$1. The Inhaler will last a lifetime, while extra bottles of Hyomel can be procured, whenever needed, for only 50 cents.

Short & Haynes are selling a good many Hyomel outfits at this season, and are having so much confidence in the remedy that they guarantee to refund the money in case it does not cure.

### The County Unit Bill.

Mr. Editor:—I will give you my impressions regarding temperance legislation at this time. I saw things while in Frankfort a few days ago. The whisky people are begging for two points; viz, cities down to the fifth class and the counties outside of the cities. Any bill of that kind will be a practical defeat; for it is not what we want or what we need but with processes of obstruction and corruption, they are determined to defeat us. I was told that all saloons had been assessed ten dollars each, making a corruption fund of some \$23,000, that may be used to lobby against the bill. The temperance are standing pat on the Cummack bill, with only two of their members standing out against us. The measure could pass if the Senate would consent to put it on its passage, to do that it requires a two thirds vote to take the bill from the orders of the day. That we cannot get, as the whisky men say, it will pass.

Therefore we may as well get ready to enter a vigorous campaign, for the purpose of selecting men who, when elected, will do their duty on this question, and compass the defeat of all men who are in league with the whisky men.

I am also impressed with another fact, the preachers and church people of this state are not awake on this question. They go to their conferences, Associations, Presbyteries, and other church convocations and vote heartily for temperance resolutions and think that they have done their whole duty. God grant me power to awake every one in this question. Preachers and teachers of Kentucky wake up! Again I say wake up! Arise against yourselves like men, and destroy the saloon if it takes a moral and political revolution to do it.

Don't frown—look pleasant. If you are suffering from indigestion or sour stomach, take Kodol, Chamberlain's Cough, Hon. Jake Moore, of Atlanta, Ga., says: "I suffered more than 20 years with indigestion. A friend recommended Kodol. It relieved me in one day and I now enjoy better health than for many years." Kodol digests what you eat, cleanses your stomach, gas on stomach, belching, etc. Sold by all druggists.

### Arrow Shields.

The other day I saw a little, modern book, in a green cover, on a table in a drawing room. I picked it up. It was about the early French in Canada, and my eye fell on a copy of a drawing of the Indian, Chippewa, or Huron. The scene represented was an attack by the native allies of the French, the Algonquians, on a fort held by the Iroquois. The Algonquians advanced through showers of arrows under shields nearly as tall as themselves, like doors with rounded tops. Now, you may see exactly the same sort of thing in a picture of a lion hunt, as laid in gold and silver, on the bronze blade of a dagger found by Dr. Schliemann in "the grave of Agamemnon." These morning's Algonquian shields caused much discussion among the learned. Why were they so huge? The Algonquians used the very same shields, hung from their necks, and the reason was the same—their battles were battles of archers, and nobody can carry a shower of arrows with a smaller shield. Shields grew small in Greece as bow and arrow went out and sword and spear came in.—London Illustrated News.

# WILL RECOVER MILLION ACRES.

That Much of the Public Domain Alleged to Have Been Illegally Taken.

As a result of the investigations made by the land department of the Government concerning the land fencing the leasing lands 1,000,000 acres of land which had been reserved frequently have been recovered and will again be thrown open for settlement on July 1 of this year. All of this land had been taken up in some illegal manner and is now being returned to the public domain.

One bunch of seventy-three affidavits was received from the United States Marshal at Red Oak, Ia., through which money had been paid to parties making proof and upon the presentation of warranty deeds to the claims.

All these will be recovered upon. Funds pre-empted before 1903 are outlawed.

Always Keeps Chamberlain's Cough Remedy in His House.

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continually in our home," says W. W. Kearney, editor of the Independent at Lowry City, Mo. That is just what every family should do. When kept at hand ready for instant use, a cold may be checked at the outset and cure in much less time than after it has become settled in the system. This remedy is also without a peer for cough in children, and will prevent the attack when given as soon as the child becomes hoarse, or even after the coughy cough appears, which can only be done when the remedy is kept at hand. # CLOVER BLOSSOMS ENTERTAINMENT.

Last Tuesday evening at the M. E. Church the Clover Blossoms gave a delightful entertainment. Little bits of poetry were said by the younger Blossoms and the older ones read and sang. A flag drill and concert singing were interesting features. Refreshments were served. A net offering box was well cared for. Mrs. R. B. Pierce is the lady manager of the Clover Blossoms and deserves credit to a large extent for the success of the entertainment. Mrs. Pierce reports the following to have taken part in the evening program.

Julia Hills, Francis Sawyer, Susette Sawyer, Edith Burns, Margaret Burns, Jeannette Burns, Marie Pike, Pauline Moorman, Edith Plank, Frank Smith, Fred Pierce, Elizabeth Skillman, Lenora M. Garlock, Mary Metcalf, Elsie Noble, Jennie Mable Harris, Lucy Adams, Fred Adams, Clifton Fort, Elmer Hoffmann, Edred Babbage, Tula Babbage, Louise Babbage, Martha Miller.

# Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys every three minutes. The kidneys are your blood purifiers. They filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or uneasy heart beats, and makes one feel as though he had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It is used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their origin in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effects of Dr. Kilmer's Swamp-Kidney, the great kidney remedy, soon realized. It stands the highest for its wonderful cure of the most distressing cases and is sold on its merits.

by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Kidney, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Write to the publisher when writing Dr. Kilmer & Co., Birmingham, N. Y.

Don't make any mistake but remember the name, Swamp-Kidney, Dr. Kilmer's Swamp-Kidney, and the address, Binghamton, N. Y., on every bottle.

# H. W. GRADY ON WHISKEY TRAFFIC.

To-night it enters the humble home to strike the roses from a woman's cheek and tomorrow it challenges this republic in the halls of Congress.

To-day it strikes a crust from the lips of a starving child and tomorrow it levies tribute from the government itself.

There is no outrage humble enough to escape it, no palace strong enough to shut it out. It defies the law it cannot coerce. It is the mortal enemy of peace and order, the despoiler of men and has dug more graves and sent more souls unnumbered to judgment than all terror of women, the cloud that shadows the face of children. It is the demon that has been more harmful than the pestilences that have wasted life since God sent the plagues to Egypt, or all the wars since Joshua stood before Jericho.

It comes to ruin and it shall profit mainly by the ruin of your sons and mine.

It comes to mislead human souls and to crush human hearts under its rimblering wheels.

It comes to bring gray-haired mothers into shame and sorrow to their graves.

It comes to change the wife's love into despair, her pride into shame.

It comes to still the laughter on the lips of little children.

It comes to stifle the music of the home and to fill it with desolation.

It comes to ruin your body and mind; to wreck your home, and it knows it must measure its prosperity by the swiftness and certainty with which it wrecks this world.

# REVENUE BILL PASSED BY 56 TO 32.

Frankfort, Ky., March 1.—The Revenue and Taxation bill finally passed the House this morning by a vote of 56 to 32. The bill has had a stormy session in the House, and the substance with its varied amendments which finally passed the House, is hardly on speaking terms with the original House Bill No. 1, introduced by James S. Morris.

The original bill was the fruit of the labors of a Senate committee, which had worked two years on it. In that form it went into the joint committee, where it was amended and passed almost beyond recognition and finally reported back to the House over a week ago. For three days it was under consideration in committee of the whole, where it was chopped in places and amendments were tacked on to other places.

A Favorite Remedy for Babies.

Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia or other serious consequences. It not only cures cough, but when given as soon as the coughy cough appears will prevent attack. For sale by Short & Haynes, Cloverport.

Influence Versus a Vote.

Rev. Madison C. Peters, of New York, said at a meeting of the Woman's club, who would have no man to represent her. According to all accounts, men in office are much more desirous to represent the lives of women in States where they have none.

Mrs. Mary C. C. Bradford, president of the Colorado State Federation of Women's Clubs, said at the Congressional Hearing in Washington in February, 1904: "Instead of woman's influence being lessened by having a vote, it is greatly increased. There were so many members of the last Legislature who wanted to get their bills endorsed by the women that the Legislative Committee of our Federation had to sit one day in every week to give hearings to them. Women outside the equal suffrage States do not have this experience."

Mrs. A. Watson Lister, secretary of the Woman's National Council of Australia, visited the United States last year. At a meeting in Boston, she said:

"One striking result of equal suffrage is that it makes men more conscientious as to their bills, when these bear upon interests of women. The author of the new divorce bill asked representatives of all the women's organizations to come together and hear him read it, and to make criticisms and suggestions. I remember that he said to me, 'I don't want to be a laughing stock before women obtained the franchise. After we had worked for years with members of Parliament for various reforms, without avail, because we had no votes, you cannot imagine the difference. When we held meetings to advocate public measures that women were to have a say in, we used to go to the high-ways an' hedges and compel the members of Parliament to come

# TWO OPEN LETTERS IMPORTANT TO MARRIED WOMEN

Mrs. Mary Dimmick of Washington tells how Lydia E. Pinkham's Vegetable Compound Made Her Well.

It is with great pleasure we publish the following letters, as they convincingly prove the claim we have so many times made in our columns that Mrs.

Mrs. Mary Dimmick

Pinkham, of Lynn, Mass., is fully qualified to give the best advice to sick women. Read Mrs. Dimmick's letters.

Her first letter:

"Dear Mrs. Pinkham:— I have been a sufferer for the past eight years with a trouble which first originated from an operation of a kind I do not want to mention. I can walk miles without an ache or a pain, and I wish every suffering woman could read this letter and realize what you can do for them."—Mrs. Mary Dimmick, 10th and East Capitol Streets, Washington, D. C.

Her second letter:

"Dear Mrs. Pinkham:— You will remember my condition when I last wrote you, and that the doctor said I must have an operation or I could not live. I received your kind letter and followed your advice very carefully and am now completely well. As my case was so serious it seems a miracle that I am cured. I know that I not only my health but my life to Lydia E. Pinkham's Vegetable Compound and to your advice. I can walk miles without an ache or a pain, and I wish every suffering woman could read this letter and realize what you can do for them."—Mrs. Mary Dimmick, 10th and East Capitol Streets, Washington, D. C.

How easy it was for Mrs. Dimmick to write to Mrs. Pinkham at Lynn, Mass., and how little it cost her—a two-cent stamp. Yet how valuable was the reply! As Mrs. Dimmick says—'I saved her life.' Mrs. Pinkham has on file thousands of just such letters as the above, and offers willing women helpful advice.

in. Now the difficulty is to keep them out. I have seen a Senator at one small meeting. Chaffery has not been destroyed, but increased. On the platform at one of our meetings, the secretary happened to drop her pencil, and I saw the premier and several members of Parliament scrambling to pick it up."

Everybody knows that legislators care more to consult the wishes of voters than those of persons without a vote. Hence women have to tell their tales of woe to the lawmakers. Alice Stone Blackwell

Nearing the City.

Margaret Ridley Scott to the March Century.

The quiet hills stretched far behind. The swift train cut the broad green plain. Like some mad dream of impulse blind That rushes headlong toward the goal.

For harsher sounds of brass and steam

How vibrant electric thrill of life How vibrant through the sunless air, Already traffic's noisy strife Foreboded the unrest of care.

Not even the memory of the thrush, Outpouring lyrics o'er the fold, Could drown the cries or still the rush Of those who gave the souls for gold.

Yet in this net of complex ways, Where time is all too brief for dreams, With heart still stirred perchance by days Passed long ago near willowed streams,

The child named Thought—who hither came From guardian hand, from cradling mood,

Who learned through God or lure of fame The master life—became a Deed.

# ST. LOUIS LIVE STOCK MARKET. Reported by Evans-Snyder-Buel Co. Live Stock Commission Agents.

(Special to the News.)

National Stock Yards, Ill., Feb. 28th, 1906.—The week opened with a very light receipts of cattle and a strong active market, but the week ending the loss noted last week, when at the close, most sales showed a decline of 15 to 25 cents. A good many plainish pretty good export steers are selling from \$5.25 to \$5.50; yet it takes a pretty good grade of 1050 to 1200 lb. steers to bring \$4.00 to \$4.25. No fancy grade has been here thus accounting for the lack of higher quotations, as something prime as to flesh and quality would sell around \$6.00. In short, the bulk of the fat steers are selling from \$4.35 to \$4.50.

Butcher grade showed less decline than beef grade last week and here was a little more strength this week, values averaging a shade higher than noted in our last letter. Odd lots of stall fed prime fat cows have reached \$4.50, but the bulk of the receipts sold from \$3.50 to \$4.15; canners around \$2.00 and canners from \$2.30 down. Some sales show 10 to 15 cents advance over a week ago.

Owing to the severe storm the fore part of the week, country buyers were scarce as were also receipts in the stocker and feeder division. Yard traders are all pretty well supplied with all but desirable grades and the trade is less active than a week ago.

We have the highest hog market in the west, and extreme top of \$6.40 having been reached here and our values are 20 to 10 cents higher than Kansas City and 30 to 10 higher than Chicago. Chicago had 90,000 hogs on Monday which caused a slight set back, but prices have ruled steady to strong since with the bulk of the packers selling \$4.15 to \$4.25; pig and lights \$3.25 to \$3.55. Sheep trade unchanged.

Compared with a year ago the average prices of cattle are \$1.35 per cent, higher, 35 cents higher and sheep about 25 cents lower. With these facts before you, you should not hesitate to take advantage of these prices on anything that is ready for market. With thirteen inches of snow on the ground, country roads almost impassible and tent coming this week, it is a question what the near future will bring forth.

## TWELVE PAGES.

WEDNESDAY, MARCH 7, 1906.

### A BIT OF LAW.

The following ordinance taken from the book of City Ordinances of Cloverport shows very plainly to our mind that certain businesses now in operation in Cloverport on Sunday are in open violation of the law. The evidence in these particular cases is more than prima facie, it is to our mind, absolutely plain evidence of guilt. We presume the ordinance was compiled and passed by the City Council with the view of being enforced. Present conditions, however, make it, pure and simple, a mockery. The ordinance reads:

"No work or business shall be done on the Sabbath day, except the ordinary household offices, or other work of necessity or charity, or work required in the maintenance or operation of a ferry, ship or steamboat, or steam or street railroads. If any person on the Sabbath day shall himself be found at his own, or any other trade or calling, or shall employ his apprentices, or other person, in labor or other business, whether the same be for profit or amusement, unless such as is permitted above, he shall be fined not less than two nor more than fifty dollars for each offense. Every person or apprentice so employed shall be deemed a separate offense. Persons who are members of a religious society, who observe as a Sabbath any other day in the week than Sunday, shall not be liable to the penalty prescribed in this ordinance, if they observe as a Sabbath one day in each seven, as herein provided."

As little contrast to the above ordinance, we reproduce below an ordinance regarding fire works, which was rigidly (very rigidly) enforced during the Christmas holidays. It is as follows:

"It shall be unlawful for any person or persons to explode or set fire to any fire-crackers, fire wheel, sky-rockets, roman-candles or any fire works of any kind or character, on or in any street, alley, or other public place, within the corporate limits of the City of Cloverport, or at any other place within the corporate limits of said city. Any person violating the provisions of this ordinance, or any part thereof, shall be fined not less than one nor more than ten dollars for each offense."

One ordinance stands primarily for the protection of man; the other for the protection of the consecration of the Sabbath. The Sabbath day is of God's own creation. Do we reverence man more than God? The contrast between the enforcement and non-enforcement of these ordinances is so striking as to make the unwary believe that Cloverport has a higher reverence for man than God. But, thank God, we do not think this is the case.

### THE SALOON AND LOCAL OPTION.

A common cry among the advocates of the open saloon in Cloverport is that "whisky is being sold here now with local option and affairs are as bad as if we had an open saloon." On the face of it, affairs are not as bad as they would be with an open saloon. In the six years that Cloverport has had local option there has been a man killed while under the influence of liquor?

Has that boy of yours been brought home to you at 12 o'clock in the night made drunk by some DRAM SELLER? No! Does that sweet daughter of yours you love with every breath you breathe and with every throb of your heart, does she, on her way to school or on the street shopping, have to pass by a foul, ill-smelling saloon, where the vilest outries and the most debaucherous slander and talk seethe out of its door while your darling, with her pure thoughts and her chastity, walks by? DOES LOCAL OPTION AFFORD THIS? NO! You say that whisky can be gotten by anybody. But can it be secured as easily as if an open saloon with its band playing and billiard balls rolling, were standing on our front street enticing our boys in? The veteran drinker who loves whisky, and even the small kindles his appetite, does he fall to the gutter as often when local option exists as when the saloon invites him in?

The affairs, gentlemen, you who stand for an open saloon, are not as bad with local option as with a saloon. And furthermore, if affairs are a little bad with local option, you know that you have not, by your vote, helped to bring about such conditions, and you are not personally responsible for such conditions.

### TOO MANY IDLE.

CLOVERPORT has too many idlers lounging around its depot. This leaves a bad impression on strangers and should not be allowed. There is an ordinance against this and it ought to be enforced. The ordinance regarding it reads:

"It shall be unlawful for any person or persons to congregate, loaf or loiter upon any of the sidewalks, streets, corner of streets, or public places of the City of Cloverport so as to obstruct the free passage thereof or so as to interfere with any business conducted within said city, and each and every person so offending shall, for each offense, be fined not less than one nor more than twenty-five dollars."

"If any able-bodied person be found begging, loitering, or rambling about, not having the means to support himself by some visible property, or does not take himself to labor at some honest and lawful calling to obtain a livelihood, or who is idle or dissolute in habits, or is found loafing or idling about places of evil resort without visible means of support, shall be arrested and adjudged to be a vagrant and a nuisance, and upon conviction thereof, shall be fined by the police court in a sum not less than one dollar nor more than twenty-five dollars for each offense."

If every man on our Main street would make it his business to keep an eye on the "pot" maker, no "pots" would be made up. The fellows that make up the "pots" are generally cowards, and at one hard look in the eye they back down and dwindle up like a leaf in the parching sun. The recent publicity the News has given these fellows has stopped this unlawful sale of whisky to a large extent, but "pots" are still being made up on the sly and the people of Cloverport don't want this. If the law won't stop lawlessness, let public sentiment do it.

The Farm Journal has nearly three million readers each issue. It

is the best farm paper in America, and it pleases the women folks all to pieces. We have made a special arrangement by which by paying for the Breckenridge News one year in advance the subscription will include the Farm Journal for the balance of 1906, and all of 1907, 1908, 1909 and 1910, nearly five years, and at the price of our paper alone.

The local union of the A. S. of E. of McQuady, have said by resolution that they will not help a non-member in the matter of wheat threshing, log-rolling, corn-shredding or house or barn-raising. This is the first step of this kind that has been taken by the A. S. of E. in this section. Such resolutions, however, are in force in Tennessee, and even more radical methods than this have been adopted to wield the power of the American Society of Equity.

We wish every farmer in Breckenridge county could have been present at the State Institute held in Frankfort last week and heard Prof. Wing on the growing of Alfalfa. It was full of pathos and many practical ideas. The Institute was a grand success. Commissioner Vreeland deserves the thanks of every farmer in the State for his good work on behalf of agriculture in Kentucky. Dr. Foote will tell our readers all about it in our next issue.

FRED PIERCE is a chip off the old block. He's got the metal of his father in him. Fred reminds us of an instance in his father's life when he threw the first shovel of dirt on the Texas road. Fred is doing in New Mexico what his father did in this county years ago, putting his hands to the saw, as his father did to the shovel, helping to push and move things. We congratulate the young man.

SUMMER will soon be here. There are many beautiful sites in and around Cloverport, and the town should not be without a park. At little expense a lot could be converted into a park with seats, walks, ways, swings, a tennis court, etc. Many towns with Cloverport's population have parks and, when they are conducted properly, are a credit to the towns.

THE News' magazine section is full of good reading this week. "Rich Wedding Presents," "Homes for City Waifs" and "The Post in Politics," are interesting stories found in this section.

A NEW YORK court has decided that in New York the husband is boss of the household. In Kentucky the women let the men think they are "it," but in reality the women are the bosses.

THE best thing you can do with that dollar in your pocket is to spend it for a year's subscription to the News and five year's subscription to the Farm Journal of Philadelphia.

WHAT are you doing or saying in behalf of that good roads convention? Get to work, get busy on the good roads question. Judge Moorman is a good roads man, and is in a position to help the work along if the people show any interest.

THE Chinese, since the war with the Boxers, have adopted modern military tactics, but they will not consent to losing their queues.

A ROAT factory and a pottery are on foot for Cloverport. So much for the good work of the Commercial Club.

THE United States is sending 20,000 soldiers to China to protect the missionaries.

CLOVERPORT would welcome a visit from Attorney Layman.

Frank Ruppert,	

The foregoing citizens of Breckenridge county are hereby appointed Chairman and Secretary their respective precincts, as shown on above list, for the purpose of conducting the precinct convention which will be held in each of the 21 precincts of the county on Saturday, March 24, 1906, at the voting place of each precinct, at 2 o'clock, p. m. I have appointed 15 delegates who will, with the Chairman and Secretary, work up the interest and make the precinct and county convention a success. The delegates will confer with the Chairman and all pull together. See that your Secretary records the sense of the precinct convention on each and every subject touched in the letter of appointment. Have it nicely written and systematically arranged for future reference. The Chairman, Secretary and delegates will then meet in Hardinsburg on Monday, March 26, at 9 o'clock sharp, bringing with them the written report of the precinct, and we will be entertained and instructed by some of the best of men, and profit by each others' suggestions and criticisms. If there is any one of our precinct officers who cannot serve or will not serve, it is your plain duty to inform me forthwith. If there is a funeral that you desire, I will take pleasure in furnishing any that is at my command. If this were a funeral a friend you would drop everything to come. There is no man in the county so important to the county interest as this move, if successful. Let us take hold of this matter to succeed—and we will. I am,

Very Truly,

# Is Disease a Crime?

Not very long ago, a popular magazine published an editorial in which the writer asserted, in substance, that all disease should be regarded as criminal.

It is, it is said, the result of sin and suffering of mankind is due to the violation of certain of Nature's laws. Not to say that all sickness should be regarded as criminal, must appeal to every reasonable individual as radically wrong.

It would be harsh, unsympathetic, cruel, yes criminal, to condemn the poor, weak, over-worked household who sinks under the heavy load of household cares and burdens, and suffers from weakness, various displacements of pelvic organs and other derangements peculiar to her sex.

Present bearing of children, with its exacting demands upon the system, coupled with the care, worry and labor of raising a large family, is often the cause of weakness, nervousness and debility which are aggravated by the many household cares, and the hard, and often useless, labor which the mother is called upon to perform. Dr. Pierce's Favorite Prescription is the only remedy for women's peculiar weaknesses and ailments.

Dr. Pierce's Favorite Prescription is one of the greatest obstacles to the cure of the disease. It is the fact that the poor, over-worked household can not get the needed rest from her household cares and labor to enable her to secure from the use of the "Prescription" its full benefits.

It is a matter of frequent experience, he says, that the extensive practice in these cases, to meet with those in which his treatment fails, or in which the patient is unable to obtain from hard work too much to be cured. With those suffering from the disease, the prevention and reversion of the uterus or the displacement of the uterus is a very necessary thing, in addition to taking the "Prescription" and the use of the "Prescription" in these cases, to meet with those in which his treatment fails, or in which the patient is unable to obtain from hard work too much to be cured.

Dr. Pierce's Medical Advice is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Little Rock, N. Y. 31 cent stamp for paper-covered, or 31 cent stamp for cloth-bound.

If sick consult the Doctor, free of charge and without cost. All such communications are kept strictly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

He will be succeeded by W. H. Johnson, of Henderson.

On Chennett correspondent says this about James A. Allen: "James A. Allen's many friends will be pleased to learn of his present success and brilliant prospects for the future. Allen, has just made a trip to Maine to work up a case of a client, who is interested in wireless telegraphy."

# Women's Kidneys.

Women are more often afflicted with kidney disorders than men, but attribute the symptoms to diseases peculiar to their sex, while in reality the kidneys are deranged. Nervousness, headache, puffiness of the face, under the eyes, pain in the back, are signs of kidney trouble that must not be ignored, or a serious malady will result. Foley's Kidney Cure has restored the health of thousands of weak, nervous, broken-down women. It stops irregularities and strengthens the primary organs. It purifies the blood and benefits the whole system. A. R. Flaner.

# About Alfalfa.

Wickerson, Kan., Mr. J. D. Babbage Editor Breckenridge News—I saw in your paper where you offer to send the Breckenridge News one year and Farm Journal five years both for \$1.00 for which you will please find enclosed money order for \$1.00 to pay for same. Central Kansas is a great farming country. The staple crop is wheat. Alfalfa and corn, and of which alfalfa is the most paying for those that have the heavy soil suitable for the crop. They often grow it four times during the season, when they don't aim for a seed crop, in that case they leave the third crop to ripen for seed. It has been known to thresh out ten bushels to the acre. It is usually worth \$7 per bu. but now nearly double. The best wheat crop was raised here. Have fairly good wheat at this writing. It is worth \$2.00, corn, \$1.00. Wheat is a little backward this time on account of the dry winter. J. E. Pale.

One would think the Laxative idea in a cough syrup should have been advanced long before it was. It seems the only rational remedy for Coughs and Colds would be to move the bowels and clear the mucous membranes of the throat and lungs at the same time. Kennedy's Laxative Honey and Tar does this. It is the Original Laxative Cough Syrup. The best known remedy for Coughs, Colds, Croup, Whooping Cough, etc. Tastes good and harmless. Sold by all druggists.

"The College Widow," which comes to Macanley's Theater, Louisville, for three nights, beginning Thursday, March 8, with one matinee, is a comedy of American life, and is said to be the cleverest thing George Ade has written. New York gave it capacity audiences for forty weeks; Boston, fourteen weeks; Chicago, nine weeks. The favorable verdict of these cities is being indorsed wherever the comedy has been seen on the road.

Indigestion is much of a habit. Don't get the habit. Take a little Kodol Dyspepsia Cure after eating and you will quit belching, puffing, palpitating and frowning. Kodol Digests and assimilates food and makes the stomach sweet. Sold by all druggists.

# KENTUCKY TO GET \$100,000 FOR FEDERAL BUILDINGS.

Washington, Feb. 28.—It is stated authoritatively that Kentucky will get four \$100,000 Federal buildings under the Buildings Bill, which will be reported to the Senate. The bills have been considering the various bills have decided upon a report to the Committee on Public Buildings and Grounds.

The subcommittee members are not allowed to say what cities will get public buildings, but it is understood that the \$400,000 allowed to Kentucky will be divided between four towns equally. Bills are in for buildings at Paris, Harrodsburg, Lawrenceburg, Catlettsburg, Ashland, Cynthiana, Lebanon, Danville, Owensboro, Winchester, Mt. Sterling, London, and Bowling Green, and for the improvement of the buildings in Henderson and Frankfort.

Members of the Kentucky delegation are guessing as to who will get the four chunks of pork.

The indications are that Mayfield, Owensboro, Bowling Green and Paducah are to be the lucky towns if the report of the subcommittee goes through without being "pruned" by the committee.

By six causes a foot may be known: Anger without cause; speech without profit; change without motive; inquiry without an object; putting trust in a stranger; and waiting expectancy to distinguish between friend and foe.

# WASHINGTON LETTER.

Washington, Mar. 8.—The National Association of Mexican War Veterans have just concluded their annual convention. There were only fifty members present although there are 3,700 veterans of that struggle still alive. Death, however, is fast thinning the ranks until one faced the armies of Santa Ana. On Friday the veterans paid their respects to Congress, were photographed on the steps of the War Department, were received by the President in the East Room of the White House, and wound up a strenuous day as guests at a reception given in honor by the Dames of 1846. The principal business of the convention was a consideration of bills now pending in Congress to increase the pensions of the veterans of the Mexican War. Congress was told that \$5,000,000 would be sufficient to meet the increase during the first year, and that there after the decrease in the number of veterans from death would average 35 per cent each year. The aged veterans, pathologically declare that none of those who crossed the Rio Grande against the armies of Mexico will be left at the expiration of five more years.

The Senate Committee has reported the Hepburn rate bill without an amendment providing for judicial review really means little. It is recognized generally now that the fight will come anyway on the floor of the Senate, and that whatever amendments are made will be made here. Little doubt is expressed that what ever bill is passed will have incorporated the right of judicial review of the decisions of the Interstate Commerce Commission. Without this saving clause, it is contended, any bill would be unconstitutional. In support of this contention it is pointed out that the Constitution provides that private property shall not be taken without due process of law, and any state empowering a commission to reduce or increase railroad rates comes directly under this provision, because railroad rates are private property. If the rate is decreased, the property of the railroad is taken: If the rate is raised, the property of the shipper is snatched. Thus, it is argued, if the government is to interfere with property, the method must be in conformity with the Constitution, and the bill to be reported will not be short of all power on the grounds of unconstitutionality.

It takes at least two years for a man to become valuable to Uncle Sam as a soldier. This is the substance of an interesting report which the Secretary of War has transmitted to the Senate in connection with the draft of a provision to extend the term of enlistment for soldiers in the Porto Rico Provisional Regiment of Infantry. These men are now enlisted for a period of two years only, and re-enlistment is prohibited in time of peace except in the case of non-commissioned officers. It is believed that this prohibition is harmful to the welfare of the regiment, as the men upon discharge generally return to their homes, reverting to their former habits, and the military knowledge which they have acquired and are supposed to impart to their fellow men amounts to nothing. Military authorities are of the opinion that an infantry soldier cannot be developed in less than two years, and for that reason the Secretary of War is attempting to increase the efficiency of the army by removing in Porto Rico the prohibition against re-enlisting after a period of service about sufficient to make the soldiers really valuable. The regimental commander believes that the prohibition should be removed, and the field officers and company commanders are unanimous in advocating increased length of enlistment with the privilege of re-enlistment.

An unusual scene took place in the House on Washington's Birthday when the members, by a vote of 113 to 67, refused to observe the day, even to the extent of listening to the reading of Washington's farewell address or the Declaration of Independence. When the House convened Thursday, Minority Leader, John Sharp Williams, moved that the address be read, but Mr. Dazell called for the regular order, and Mr. Holl moved that the House take up at once the Army Appropriation bill. Then Mr. Williams argued that the House adjourn in honor of the day, and his motion was overruled by the above vote. In the Senate, all the regular formalities were observed. Chaplain Hale in his advocacy dwelt on the example set by the life of George Washington, and immediately afterward, Senator McCrory of Kentucky read the farewell address of the Father of His Country.

The latest honor thrust on President Roosevelt is in the shape of a gold.

The grower is to the guard family what Burkhart is to the fruit and vegetable world—a wizard. The guard, as the result of grafting and cross-breeding, is the size of a standard sugar bowl and has four handles placed around the sides. It will hold at least a gill, more of spring water than any of its brothers agencies. Its inventor says so, and the President is a-e-o-lighted.

The Senate Philippines' Committee is being flooded with petitions against the passage of the Philippine Tariff bill. F. H. Hathaway of Michigan, told the Committee the other day that if the duty on sugar were tampered with, the islands eventually will supply all the sugar used in the United States, and bring ruin to the American beet sugar industry. He declared that there were 1,300,000 acres in the islands peculiarly adapted to the cultivation of sugar, and that this land had the best facilities for irrigation. These figures surprised the members of the Committee, for they are very much greater than those given by government statisticians. Mr. Hathaway declared emphatically that his statement could easily be proved.

# WON'T HELP NON-MEMBERS.

The local union of the A. S. of E. at Jolly Station was called to order by President G. S. Wilson, Saturday evening Feb. 24, 1906.

The roll-call by the Secretary showed a quorum present, and the lodge proceeded to business. The matter of annual dues having been disposed of the doors of the lodge were opened for the reception of new members whereupon Messrs. G. P. Ballard and Burne McGary presented themselves for membership and were received in to full connection. The following resolutions were unanimously adopted:

Resolved, that the members of this lodge positively refuse to assist in the matter of wheat-threshing, log-rolling, corn-shedding or house or barn raising, where the party having such work to perform, is a non-member, or who by practice acts in opposition to the plans and purposes of the Green River Dark Tobacco Growers Association.

## INTERESTING LETTER

FROM REV. HARKELL.

Chrisney, Ind., Mar. 2, 1906. Mr. J. D. Babbage, Cloverport, Ky. Dear friend and brother—Since the time of my visit to Cloverport last fall the Breckenridge News has been making regular and most welcome visits to my home. It is one of the elements, cherishes, most progressive and best among more than the half dozen periodicals that come into my happy home. I have been reading it with interest and pleasure. The many familiar names of persons and places, seen in its columns every week are pleasant reminders of faces and scenes and deeds of kindness that have contributed largely to the sum of my happiness in this life.

I am so sorry that the poor old much abused County Unit local option bill has again received a black eye. Yes, it is all right for the whiskey man, Jack Cism Co. It may be adopted as a rule without exception that what is right for the whiskey man, is right for the temperance people.

I want to take off my hat to Judge Henry Deffenbaugh Mooreman, and extend him my hand from across the Ohio in congratulation upon his bold, progressive and wise movement for good roads in the Breckenridge county. This plan is a wise one, and inasmuch as it appeals to, and includes the whole people of the county irrespective of their geographical position, or political creed, it cannot fail to be popular. If the people will heartily co-operate with their county judge in his determination to secure good roads through out the county, and make it easy for him to carry out the intention of the statute upon the subject, it will be but a few years until Breckenridge county will, after things being equal, have as good roads as any county in the State. He can do comparatively nothing without their co-operation, with it, he will prove, at least upon the subject of good roads, a worthy "Daniel come to judgment."

If McQuay gets the Middleville railroad, tell her to please extend it to Cloverport, and I will run around to Cincinnati, Ind., and step over to see her some afternoon. This would give me an opportunity to shake hands

# SWEETLY LYONS LIFE

Untold Suffering and Constant Misery—Awful Sight From that Dreadful Complaint, Infantile Eczema—Commenced at Top of his Head and Covered Entire Body.

## MOTHER PRAISES CUTICURA REMEDIES

"Our baby had that dreadful complaint, Infantile Eczema, which afflicted him for several months, commencing at the top of his head, and at last covering his whole body. His sufferings were untold and constant misery. In fact, there was nothing we could not have done to have given him relief. The family doctor seemed to be wholly incapable of coping with the case, and after various experiments of his, which resulted in no benefit to the child, we sent to Mason, Ill., to a druggist and got a full set of the Cuticura Remedies and applied as per directions, and he began to improve immediately, and in about three or four days began to show a brighter spirit and really laughed, for the first time in a year. In about ninety days he was fully recovered, with the exception of a rough skin, which is gradually disappearing and eventually will be replaced by a healthy one."

"Praise for the Cuticura Remedies has always been our greatest pleasure, and there is nothing too good that we could say in their favor, for they certainly saved our baby's life, for he was the most awful sight that I ever beheld, prior to the treatment of the Cuticura Remedies. Mrs. Mabelle Lyon, 1828 Appleton Ave., Parsons, Kan., July 18, 1905."

## COMPLETE TREATMENT \$1

Complete external and internal treatment for every humor, consisting of Cuticura Soap, Ointment, and Pills, may now be had for one dollar. A single set is often sufficient to cure the most torturing, disfiguring, itching, burning, and itchy humors, eczema, rashes, and eruptions, from infancy to age, when all cure fails.

"Cuticura Soap, Ointment, and Pills are sold throughout the country by all druggists, and by mail from the Cuticura Remedies Co., P. O. Box 103, St. Louis, Mo."

With a lot of old friends there and get home again before bedtime.

I sincerely hope and pray that your good city of Cloverport will be able to still hold the saloon crime at bay, and to severely rebuke the saloon apologists and supporters by a big majority vote in the coming local option election. What a burlesque upon good government and common sense, upon our boasted civilization, that the people and well-being of a town or community may be thus menaced by the saloon every two years. How long. O how long shall it be till the people will choose wise legislation who are free from saloon domination.

The good people of Indiana have been fighting the saloon and even greater disadvantages than exist in Kentucky, but since last May the statutes have provided a system of remonstrance, which is about as good, and in some respects is probably a little better, than the Kentucky Local Option law. Some of us cleared our skirts of the saloon evil, for the time being, by doing what we could to prevent the further granting of saloon licenses at this place. Since that we have endeavored what we called to cure, and while so doing the time, we have sought to educate the people for another effort, and are continually endeavoring to secure a better time and that in the near future. Hammond township, which includes the town of Greencastle, is situated, also the township in which I live, and I have been preaching once a month during the last year, has recently gone to Greencastle township, including Rockport, files a remonstrance, which will close sixteen saloons there when present license expires; this will make twenty saloons around the county house in Spencer Co., Ind. Jackson township in which Greencastle, with its two saloons, is situated, also the remonstrance today. This will make dry territory on this side of Greencastle township, and that City township; on the remaining side can be easily made dry, and probably will be soon.

I enclose you a poster which will indicate what we are to undertake in Greencastle township which includes Chrisney, with its four saloons.

Yours for good government,  
W. V. Harrel.

## Common-Sense Facts.

"Stop pouring bad medicine down your throat, and get acquainted with common sense. The message of the Biggle Health Book (see advertisement in another column). Of all the practical and sensible books that have been written by Jacob Biggle, the Health Book is certainly one of the very best. It tells clearly and fully what to do to keep well and avoid the doctor's visit or to assist him when attacked by the seven hundred different diseases every one is likely to get. No medicine in it, no worthless "treatments," no quackery; just the common-sense facts on health and hygiene, how to keep the whole family well without dosing? "A man, as he manages himself, may die old at thirty or young at eighty," says Ind. Biggle. The Health Book is 50 cents, free by mail; address the publishers, Wilmer Atkinson Co., Philadelphia.

# SOUTH A WHITE MAN'S LAND.

The Southern Society celebrated Feb. 22 with a session at the Wadsworth. More than two hundred members attended. The feature was a lecture by James Arthur MacKnight of Alabama, who with the aid of stereoscopic views described the great development of the South in the last twenty years.

This growth had come about, Mr. MacKnight said, despite the immense damage which had been done to the interests of the South by the carpeting and nagging of certain elements in the Northern States.

"Much has been said in blame of the South," Mr. MacKnight said, "but little in its praise. The time has come to tell another story. One of the criticisms which has been generally circulated is that the Southern employer, having been at one time so accustomed to slaves, treats his laborers as they were slaves. This is slender and simple; if there ever was slightest basis for it, it does not exist now."

"The nagging of the South on the negro question has gone on now steadily forty years. It would seem about time to give the South a rest on this question and leave the solution of it to the people who are most affected by it. What the South has done in eliminating the ignorant negro vote, which is as corrupt as it is ignorant, would be done to day by any Northern community confronted with the same conditions. If there were a million negroes in New York city and only one hundred thousand white men the latter would rule the city, hold all the offices and keep entire control of public affairs; and they would not admit the negro to social equality."

"What the South has done to cut out the ignorant and corrupt negro vote has been sustained by the court of last resort, and the agitators in Congress, it is said, have been warned by President Roosevelt to refrain from Cannon that those high officials of the Government will give them no comfort in their efforts to cut down Southern representation. The South has no fear that this will ever be done; they regard the South as a white man's country and believe that it will always be so."

## Fatally Burned.

Ruth Ramsey, the nine-year old child daughter of Mr. and Mrs. John E. Ramsey, was fatally burned at the family home at Spottsville Thursday shortly before noon. The child was with her mother in the kitchen helping her to prepare dinner. Mrs. Ramsey stepped out in the yard for some purpose. While she was away the blind girl attempted to put coal in the stove and her dress ignited. The child was not aware of her danger until the flames had gained sufficient headway to burn through her clothes. The remains of the child were buried at Owenboro.

"Your remedy was prescribed, and the way it acted upon my system was almost too good to be true. I certainly have regained my health and strength, and I no longer suffer periodical pains and extreme lassitude."—Mable Bradford.

**Mrs. Lizzie Redding**, 2154 B. Clifton Place, St. Louis, Mo., writes:

"I found after trying many different medicines to restore me to health, that Pe-ru-na was the only thing which could be depended upon. I began taking it when I was in a decline, induced by female weakness and overwrought nerves."

"I began to feel stronger during the first week I took Pe-ru-na and my health improved daily until now I am in perfect health and enjoy life as I never did before."—Lizzie Redding.

Thousands of Women Cured Every Year by Correspondence—This is What Dr. Hartman Proposes to Do For You Without Charge.

Women who suffer should read the evidence presented here. We have thousands of letters from grateful friends who tell the same story.

As for the ills that are peculiarly women's own are of a catarrhal character. Female weakness was not understood for many years.

Dr. Hartman deserves the credit of having determined its real character. He has made catarrh such a

disease, including pelvic catarrh a life long study.

Pe-ru-na cures catarrh, whether of the pelvic organs or any other organ of the human body.

Pe-ru-na, a Natural Beautifier.

Pe-ru-na produces clean, mucous membranes, the basis of facial symmetry and perfect complexion.

The women have not been slow to discover that a course of Pe-ru-na will do more toward restoring youthful beauty than all the devices known to science.

Many a girl has regained her faded beauty, many a matron has lengthened the days of her comely appearance by using Pe-ru-na.

In Pe-ru-na these women find a prompt and permanent cure.

Thousands of testimonials to this effect are received by Dr. Hartman every year. The good that Pe-ru-na has accomplished in this class of cases can scarcely be over-estimated.

If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

## ST. LOUIS LIVE STOCK MARKET.

Reported by Evans-Snyder-Buel Co. Live Stock Commission Agent.

Special to the News.—National Stock Yards, Ill., Feb. 21, 06.

A good moderate run of cattle early this week met with a slightly lessened demand as compared with a week ago. Beef and butcher-cattle are selling slow to a dime lower. Outside of one 6-cent bunch there has been nothing good in the beef steer line. We sold several bunches of 100-day fed Kansas steers weighing 1277 to 1303 at \$5.10 to \$5.45, also a good quality light weights and plain quality heavy weight natives at \$4.75 to \$5.00. Best heifers brought \$4.65, prices ranging down to \$3.00 to \$3.75 for commoner lot. Best cows \$4.50; bulls \$3.50 to \$4.00. Killers are strong competitors for all pretty good weight feeding steers that show any flesh. Not enough stockers and feeders coming to supply the demand.

Our bullock views on hogs are reflected in a 75 cent advance since Feb. 1st. The fancy price of \$6.30 was paid here Monday and Tuesday; \$6.25 sales being pretty plentiful and the bulk of the packing grades going at \$6.10 to \$6.20.

Sheep values practically unchanged; lambs a quarter lower. A fair grade of stockers selling \$4.00 to \$4.35 and western lambs around \$6.65. Very few native sheep coming.

Any reader of the News is welcome to write us for more specific information than can be given in our space here.
